APPENDIX

PA-508 Adopted Definition of Housing First

Housing First is an approach in which housing is offered to people experiencing homelessness without preconditions (such as sobriety, mental health treatment, or a minimum income threshold) or service participation requirements and in which rapid placement and stabilization in permanent housing are primary goals. PSH projects that use a Housing First approach promote the acceptance of applicants regardless of their sobriety or use of substances, completion of treatment, or participation in services. HUD encourages all recipients of CoC Program-funded PSH to follow a Housing First approach to the maximum extent practicable.

Housing First Principles

Housing First is a programmatic and systems approach that centers on providing homeless people with housing quickly and *then* providing services as needed using a low barrier approach that emphasizes community integration, stable tenancy, recovery and individual choice.

Low barrier approach to entry:

- Housing First offers individuals and families experiencing homelessness immediate access to permanent supportive housing without unnecessary prerequisites. For example:
 - a. Admission/tenant screening and selection practices do not require abstinence from substances, completion of or compliance with treatment, or participation in services.
 - b. Applicants are not rejected on the basis of poor or lack of credit or income, poor or lack of rental history, minor criminal convictions, or other factors that might indicate a lack of “housing readiness.”
 - c. Blanket exclusionary criteria based on more serious criminal convictions are not applied, though programs may consider such convictions on a case-by-case basis as necessary to ensure the safety of other residents and staff.
 - d. Generally, only those admission criteria that are required by funders are applied, though programs may also consider additional criteria on a case-by-case basis as necessary to ensure the safety of tenants and staff. Application of such additional criteria should be rare, and may include, for example, denial of an applicant who is a high risk registered sex offender by a project serving children, or denial of an applicant who has a history of domestic violence involving a current participant.

Community integration and recovery:

- Housing is integrated into the community and tenants have ample opportunity and are supported to form connections outside of the project.
- Housing is located in neighborhoods that are accessible to community resources and services such as schools, libraries, houses of worship, grocery stores, laundromats, doctors, dentists, parks, and other recreation facilities.
- Efforts are made to make the housing look and feel similar to other types of housing in the community and to avoid distinguishing the housing as a program that serves people with special needs.

- Services are designed to help tenants build supportive relationships, engage in personally meaningful activities, and regain or develop new roles in their families and communities.
- Services are recovery-based and designed to help tenants gain control of their own lives, define their personal values, preferences, and visions for the future, establish meaningful individual short and long-term goals, and build hope that the things they want out of life are attainable. Services are focused on helping tenants achieve the things that are important to them and goals are not driven by staff priorities or selected from a pre-determined menu of options.

DEFINITIONS OF KEY TERMS:

Category 4 – HUD Homeless Definition. HUD defines four categories under which individuals and families may qualify as homeless. Category four is individuals and families who are fleeing, or are attempting to flee, domestic violence, dating violence, sexual assault, stalking, or other dangerous or life-threatening conditions that relate to violence against the individual or a family member. Section 605 of VAWA 2022 amended section 103(b) of the McKinney-Vento Homeless Assistance Act to require HUD to consider as homeless:

any individual or family who—

- (1) is experiencing trauma or a lack of safety related to, or fleeing or attempting to flee, domestic violence, dating violence, sexual assault, stalking, or other dangerous, traumatic, or life-threatening conditions related to the violence against the individual or a family member in the individual's or family's current housing situation, including where the health and safety of children are jeopardized;
- (2) has no other safe residence; and
- (3) lacks the resources to obtain other safe permanent housing.

Chronically Homeless. The definition of “chronically homeless”, as stated in Definition of Chronically Homeless final rule is:

1. **(a)** A “homeless individual with a disability,” as defined in section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)), who:
 - i. lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and
 - ii. Has been homeless and living as described in paragraph (a) (i) continuously for at least 12 months or on at least four separate occasions in the last 3 years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least 7 consecutive nights of not living as described in paragraph (a) (i). Stays in institutional care facilities for fewer than 90 days will not constitute as a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering an institutional care facility;
- (b)** An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (a) of this definition, before entering the facility;

(c) A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (a) or (b) of this definition (as described in Section I.D.2.(a) of this Notice), including a family whose composition has fluctuated while the head of household has been homeless.

Disabling Condition: Disabling Condition is defined by HUD as a condition that: (i) Is expected to be long-continuing or of indefinite duration; (ii) Substantially impedes the individual's ability to live independently; (iii) Could be improved by the provision of more suitable housing conditions; and (iv) Is a physical, mental, or emotional impairment, including an impairment caused by alcohol or drug abuse, post-traumatic stress disorder, or brain injury; (2) A developmental disability, as defined in this section; or (3) The disease of acquired immunodeficiency syndrome (AIDS) or any conditions arising from the etiologic agent for acquired immunodeficiency syndrome, including infection with the human immunodeficiency virus (HIV).
